

Asset Disposal & Recovery ***Properly dispose of your IT equipment***

Optimum can determine the most cost effective way to dispose of your unwanted equipment.

We provide cost-effective, **environmentally** conscious asset disposal solutions. Optimum can evaluate your unwanted electrical and electronic equipment and data storage products and find the best way to dispose of these products. In some cases your equipment or data storage device may have a value and in other cases we must find the best way to environmentally dispose of the asset.

Our processes include the recovery and recycling of the materials used during manufacturing. Your company's data security is paramount and Optimum's security measures comply with DOD, HIPAA, Sarbanes-Oxley, and PCI processes.

Optimum's program may include any or all of the following based on requirements:

- Security for both your equipment and your data.
- 24/7 monitoring
- Access control
- Video surveillance
- Secured shredding
- Tape media buyback
- Documentation of each product and scanning of each tape label for reconciliation.
- Secure shipping services with full "Chain of Custody" if required
